PROFESSIONAL SUMMARY

IT student and self-taught developer who builds and ships real tools rather than just studying them, a payment dashboard live on Paystack, a class-planner web app with authentication, and two active freelance/e-commerce ventures. Comfortable working independently and asynchronously with clients, integrating APIs, automating workflows with Apps Script, and picking up new tools fast. Seeking remote junior developer, virtual assistant, or technical support roles.

TECHNICAL SKILLS

Languages & Web: C++, HTML, CSS, JavaScript, Arduino C++

Databases & Automation: SQL (DDL/DML, Transactions, Access Control, Queries), JSON, Google Apps Script, Google Workspace

APIs & Payments: Paystack API integration, REST APIs, Mobile Money (MoMo), Payoneer

Tools & Platforms: Shopify + DSers, WPS Office, Canva, Netlify (deployment)

Concepts: OOP, Statistical Analysis, UI/UX fundamentals, Remote/Async Collaboration

EXPERIENCE

IT Intern | *Enterprise Computing Limited* Aug 2026 – Sept 2026

- Supported PC maintenance, networking, and database management for company systems.
- Worked hands-on with structured data, including using JSON for parts of the data handling and writing database queries.

IT Intern | *Maritime International Hospital* May 2026 – July 2026

- Provided IT support across PCs, networking, and database management within a live hospital environment.
- Learned how the hospital's management system worked end-to-end by studying and querying its underlying database, including JSON-based data handling.

Freelance Virtual Assistant | *Self-Employed* February 2026 – Present

- Deliver data entry, digital organization, and professional document formatting for clients remotely.
- Handle recurring IT support: printer and network troubleshooting, Windows device management, and password/access resets.

ENTREPRENEURIAL VENTURES

Founder & Developer Of SwiftFixGH | *Freelance Tech Services* 2026 – Present

- Run a freelance business offering website development, Paystack payment integration, and tech support to small Ghanaian businesses.
- Designed, built, and deployed a full multi-page business website on Netlify, and built a functioning Paystack payment dashboard used for real client transactions.

Founder Of Nestify | *Home & Kitchen E-commerce (Shopify)* 2026 – Present

- Set up and operate an AI-assisted dropshipping store end-to-end on Shopify using DSers for order fulfillment.
- Manage marketing on TikTok (@nestify.deals) and handle international payments via Payoneer.

TECHNICAL PROJECTS

Paystack Payment Manager Dashboard | *Google Sheets + Apps Script* March 2026

- Built a payment dashboard automating payment-link generation and integrating the Paystack API for real-time transaction tracking, improving payment tracking efficiency.

DataLink Class Planner Website | *HTML, CSS, JavaScript* 2025 – 2026

- Developed a web-based class planner with login/authentication and a dynamic timetable supporting multiple courses, levels, and admin-based updates.

Hardware Prototyping & Automation | *Arduino / C++* February 2026

- Designed and wired ultrasonic, servo, and temperature-sensor systems; programmed microcontrollers in C++ for automated, sensor-driven responses.

Interactive Data Dashboard | *WPS Spreadsheets* March 2026

- Built a custom navigation sidebar using shapes and hyperlinks to improve data accessibility and user experience.

EDUCATION

BSc in Information Technology | *DataLink Institute* 2024 – Present

- Relevant coursework: Database Systems, Statistics & Probability, Computer Architecture & Organization, C++ Programming, Web Development, Economics.

ADDITIONAL ACTIVITIES

- Independent AI & Automation Exploration, actively explores AI tools, prompt engineering, and automation beyond coursework.
- Collaborative Peer Study Group: prepares academic presentations on computer performance and technical topics.
- Conducted economic analysis on inflation trends in Ghana and solved advanced statistics problems (variance, distributions, correlation).

SOFT SKILLS

Critical Thinking • Analytical Reasoning • Self-Learning • Written Communication • Adaptability • Attention to Detail • Remote Collaboration
